Marwa Sewelam

"I find the meaning in data."

Data Analyst with a strong scientific background in Microbiology. Bridging life sciences and advanced data systems to transform raw metrics into actionable insight and storytelling.

IDENTITY & BACKGROUND

Scientific Roots

Bachelor's degree in Microbiology from Tanta University (GPA 92.7% - Excellent with honours), building rigorous analytical and research discipline.

Future Bioinformatician

Combining biological sciences with modern data tools like Python, SQL, and R to unlock deep insights in healthcare and research.

IEEE & DEPI Training

Sharpening technical execution through the Digital Egypt Pioneers Initiative (DEPI) and IEEE Tanta Student Branch.

TECHNICAL & CORE SKILLS

Technical Stack

Python: Pandas, NumPy, Matplotlib, Seaborn

SQL: SQL Server, Relational Databases, Window Functions

Microsoft Excel: Power Query, Power Pivot, Dashboards

R Programming: Statistical Data Analysis

Core Competencies

Communication · Public Speaking · Leadership · Attention to Detail · Teamwork · Scientific Research

FEATURED DATA ANALYSIS PROJECTS

Kaggle Data Science Survey Analysis

Microsoft Excel

Analyzed the Kaggle Data Science Survey across 2018–2020 (>62,000 rows, ~300 columns) using Power Query, Power Pivot, Pivot Tables, and interactive dashboard creation.

Power Query · Power Pivot · Dashboard Design

E-Commerce Platform – Data Analysis System

SQL & Excel

Designed relational database in SQL Server with 100+ realistic records, advanced JOINs, window functions, and exported results to Excel for KPI dashboards.

SQL Server · Window Functions · KPIs

Superstore Sales Analysis

Python

End-to-end Exploratory Data Analysis (EDA) of the Sample Superstore dataset using Pandas, NumPy, Matplotlib, and Seaborn to extract key profit and shipping insights.

Pandas & NumPy · Matplotlib · EDA

EXPERIENCE & EDUCATION

Professional Data Analyst Track
07/2026 - Present

Digital Egypt Pioneers Initiative (DEPI) • Hybrid

Building practical Python and SQL skills through hands-on data analysis projects and exercises.

Data Analysis Trainee
09/2025 - 08/2026

IEEE Tanta Student Branch • Remote

Completed Excel and SQL phases with 3 practical projects delivered. Conducted SQL querying, joins, subqueries, and data storytelling results.

Parkville Learning Champion – Intern
07/2026 - 07/2026

Parkville • Remote

Multidisciplinary pharmaceutical internship covering marketing, R&D, supply chain, and AI applications in pharmaceutical research.

Bachelor's Degree in Microbiology
2022 - 2026

Tanta University • Tanta, Egypt

Graduated with GPA 92.7% - Excellent with honours, building a solid scientific research and biological foundation.

High School Diploma, Science
2019 – 2022

Gharbiya STEM High School • Tanta, Egypt

Project-based, self-learning focused curriculum fostering critical thinking, research, and scientific inquiry.

CERTIFICATIONS & LEADERSHIP

Professional Courses

- **Data Fundamentals**
  IBM-SkillsBuild • 08/2026
- **An editor's guide to writing a review article**
  ELSEVIER - Researcher Academy • 02/2026
- **Statistical Data Analysis Using R Language**
  SRTACity • 02/2026
- **Think Like a Data Analyst**
  DATA SKOOL • 01/2026
- **Employability Skills Training (EST)**
  Be Ready Initiative • 08/2025 – 09/2025
- **Project Management**
  American Chamber of Commerce in Egypt • 09/2024

Leadership & Activities

Graphic Designer & Team Leader

Tanta-UCCD-Medical Campus (2025 - 2026)

Managed an 8–member design team, produced ~25 marketing visuals using Canva, and coordinated tasks.

Trainer & Organiser

Human Squad System Event - STEM Gharbiya (12/2021)

Delivered 4 lectures across diverse biological topics and contributed to on-site event planning.
